
E-Commerce Sales Analysis: Customer Segmentation & Forecasting

Executive Analysis & Strategic Recommendations

Presented by: Ankita

Date: June 12, 2026

Business Objectives and Strategic Focus Areas

PRIMARY GOAL

Leverage data-driven insights to increase revenue, strengthen customer retention and support strategic business decision-making.

CORE OBJECTIVES

- 01** Identify the most profitable product categories and pricing power.
- 02** Understand customer lifecycle dynamics through rigorous RFM segmentation.
- 03** Forecast future sales trends to inform inventory and financial planning.

Sales Performance: Trends, Products & Geography

REVENUE TRENDS

Consistent year-on-year growth with strong Q4 holiday peaks. Validates overall business strategy.

GEOGRAPHIC DISTRIBUTION

Concentration in major urban centers: New York, Los Angeles and Seattle. Suggests strong urban brand penetration.

Key Takeaway: Growth driven by high-margin Tech sales and the rapidly expanding Office Supplies segment in urban markets.

RFM Segmentation: Understanding Customer Value

Key Takeaway: Successful retention of High-Value customers is profitable, but a large at-risk segment requires immediate re-engagement.

HIGH VALUE CUSTOMERS

106

Frequent, high-spending and recently active customers. Core profit drivers.

AT RISK & LOST

256

Significant segment requiring immediate win-back strategies.

Segment Distribution

6-Month Forecast: Stable Outlook

MODEL PERFORMANCE

20.5%

Forecast Error

12,541

RMSE

Utilizing Holt-Winters Exponential Smoothing to capture historical trends and seasonal patterns.

OPERATIONAL IMPACT

Stable sales forecasts enable the business to plan inventory more efficiently, reducing unnecessary stock costs while maintaining product availability. Financial planning should remain conservative.

PROJECTED SALES TREND

Key Takeaway: Future sales projected stable performance with expected short-term fluctuations over the next six months.

Strategic Growth Areas for Revenue Expansion

Key Takeaway: Scale high volume categories and focus on retention.

SCALE OPPORTUNITY

Expand Office Supplies

Capture the highest-growth segment and leverage volume.

MARGIN OPPORTUNITY

Maximize Tech Revenue

Protect margins and lift AOV via upselling.

RETENTION OPPORTUNITY

Improve Customer Retention

Run targeted win-back campaigns for at-risk users.

MARKET OPPORTUNITY

Strengthen Urban Markets

Localize campaigns for top metropolitan cities like NY and LA.

Strategic Roadmap: Actionable Implementation Steps

INVENTORY OPTIMIZATION

Align procurement with 6-month forecast.

Expected Impact: 10-15% reduction in holding costs and minimizes stockouts.

CUSTOMER RETENTION

Deploy automated "Win-Back" sequences.

Expected Impact: Improved Customer Lifetime Value (CLV) and recovery of at-risk customers.

MARKETING STRATEGY

Targeted B2B programs & premium bundles.

Expected Impact: Increased market share in Office Supplies and higher Tech AOV.

REGIONAL EXPANSION

Dynamic pricing in high-performing cities.

Expected Impact: Optimized profit margins in strong urban markets like New York and LA.

Key Takeaway: Disciplined execution of these steps will drive profitable growth and operational efficiency.

Driving Future Growth Through Analytics

Key Takeaway: *Success depends on data-driven execution and a shift toward proactive customer lifecycle management.*

THE FOUNDATION

Strong revenue base in Technology and massive scaling potential in Office Supplies.

THE CHALLENGE

Addressing the historical issue with long-term customer retention and at-risk segments.

Immediate Next Steps

- Establish monthly forecast review meetings.
- Launch personalized retention marketing campaigns.
- Conduct barrier analysis in low-performing regions.
